

Access control handle For Euro lock doors - for use in indoor areas

### Product description

- Wireless Aperio® handle which can be integrated into any access control system via AADP protocol integration or via Aperio Wiegand Hub
- Can be used with the most common European (DIN) mortise locks - in wooden, steel, and tubular-frame doors (and glass doors with standard lock cases)
- Online or offline mode is selected in software during product initialization (accessories PAP tool and radio dongle or cable required)
- When online, communication from hub to the Online Access Control System (addressable) - access decision in the EAC system
- All electronics and functionality are in the outside part of the handle
- Outside handle rotates freely - inside handle always engaged
- LED for status visualization
- Discrete handle with minimum footprint and contemporary design

### Scope of delivery

- 1 pair of handles with battery (Lithium CR123A) and installation instructions
- Cuttable fixing screws
- 7 mm and 8 mm spindle
- Accessories pack

### Technical data - Access control handle
